## PROFILE

I am a dedicated and passionate Computer Science student at Tshwane University of Technology, with a strong foundation in software development and a deep interest in emerging technologies. I strive to contribute meaningfully to the 5th Industrial Revolution by leveraging modern tools and programming skills to build solutions that improve everyday life. My strengths lie in critical thinking, logical reasoning, and a relentless drive for self-improvement. In a recent student accommodation project, I led the technical design and implementation of a user-friendly application that simplifies the allocation process, showcasing my ability to apply theoretical knowledge to practical problems.
