PROFESSIONAL SUMMARY

Graduate-level Computer Science student at Tshwane University of Technology with strong foundations in software development, full-stack web applications, and database systems. Skilled in Python, Java, JavaScript, TypeScript, FastAPI, React, and PostgreSQL. Proven academic top achiever with hands-on experience in building real-world applications, system design, and problem-solving. Seeking a Graduate Software Developer / Junior Software Developer role to apply technical skills in a professional environment.

TECHNICAL SKILLS

Programming Languages:
Python, Java, Kotlin, JavaScript, TypeScript, HTML, CSS

Frameworks & Libraries:
React, Next.js, FastAPI, SQLAlchemy

Databases:
SQL, PL/SQL, PostgreSQL, Database Design Principles

Software & Tools:
Git, Docker, Linux, NetBeans, Visual Studio Code, PyCharm

Core Concepts:
Software Development Life Cycle (SDLC), Object-Oriented Programming (OOP), Operating Systems, RESTful APIs

---

EDUCATION

Tshwane University of Technology
Diploma in Computer Science (Extended)
2022 – 2025

- Consistently ranked among top-performing students in the Faculty of ICT
- Top Academic Achiever (2022, 2023, Jan 2023 – Jun 2024, 2024)
- Demonstrated strong performance in software development, databases, and systems analysis

Pretoria Central High School
National Senior Certificate (Grade 12)
Completed: 2021

WORK EXPERIENCE

Work Integrated Learning (Software Development)

NFR | SARAO
Aug 2025 – Jan 2026

- Gained hands-on experience in software development within a professional engineering environment
- Applied programming fundamentals to real-world systems and projects
- Strengthened problem-solving, debugging, and code quality practices
- Collaborated with engineers to understand software workflows and best practices

---

Student Assistant

Tshwane University of Technology
Jan 2025

- Assisted academic and administrative staff with technical and logistical tasks
- Supported system usage and documentation where required
- Developed strong communication and organisational skills

Volunteer Tutor (Computer Science)

Tshwane University of Technology
Feb 2025

- Provided academic support to students in foundational computer science modules
- Explained programming concepts, problem-solving techniques, and algorithms
- Helped improve student understanding and performance

PROJECT EXPERIENCE

Student Accommodation Management System

Full-Stack Web Application

- Designed and developed a full-stack web application to streamline student room allocation and accommodation management
- Implemented backend logic and database structures to manage student, room, and allocation data efficiently
- Applied software development best practices including logical workflows, data validation, and system usability
- Strengthened skills in system analysis, problem-solving, and end-to-end application development

Technologies: Java, Web Technologies (HTML, CSS)

Employee Management System

Backend REST API Application

- Developed a RESTful API to manage employee records, including create, read, update, and delete (CRUD) operations
- Designed and integrated a PostgreSQL database to securely store employee data
- Implemented API endpoints using FastAPI and tested functionality using Postman
- Improved understanding of backend architecture, API design, and database interactions

Technologies: Python, FastAPI, PostgreSQL, SQLAlchemy, Uvicorn, Postman

---

Digital Business Card System

Web-Based Application

- Designed a web platform allowing users to manage personalised digital business cards
- Implemented functionality to share digital cards via URL and QR code generation
- Focused on usability, responsiveness, and modern web design principles
- Gained experience in user-centric design and web application deployment concepts

Technologies: Python, FastAPI, PostgreSQL, SQLAlchemy, Uvicorn, Postman

---

Health and Safety Training Application

Web Application

- Developed an application to deliver health and safety training through video and pdf based learning
- Implemented progress tracking to ensure users watch the full training video
- Designed quiz functionality to assess user understanding after training completion
- Reinforced concepts of user engagement, validation logic, and application flow control

Technologies: Python, FastAPI, PostgreSQL, SQLAlchemy, Uvicorn, Postman

---

Church Website

Static / Dynamic Website

- Designed and developed a responsive website to provide information about church activities and services
- Implemented clean navigation and structured content to improve accessibility and user experience
- Applied best practices in layout design and frontend development

Technologies: HTML, CSS, JavaScript

AWARDS & ACHIEVEMENTS

- Best First Year Computer Science Student Achiever (2022)
- Best Second Year Computer Science Student Achiever (2023)
- Second Year Overall Top Student – Faculty of ICT (2023)
- Top Academic Achiever – Diploma in Computer Science (Extended) (Jan 2023 – Jun 2024)
- Best Third Year Computer Science Student Achiever (2024)
- Third Year Overall Top Student – Faculty of ICT (2024)

SOFT SKILLS

- Strong analytical and problem-solving skills
- Effective verbal and written communication
- Team collaboration and adaptability
- Attention to detail
- Continuous learning mindset
